

WEEE Compliance Statement

The European Union's Waste Electrical and Electronic Equipment (WEEE) Directive was implemented in member states during 2006.

There are a number of obligations imposed on Able Systems limited (Able) as a "Producer" of certain qualifying electrical and electronic equipment.

Able's compliance approach for each of these obligations is provided below

WEEE Marking

All qualifying products that are subject to the WEEE Directive and supplied by Able since August 2005 are compliant with the WEEE marking requirements.

Such products are marked with the "crossed out wheeled bin" WEEE symbol shown above and in accordance with European Standard EN 50416.

Able's Producer ID Number: WEEE/MM0004AA

Information for users

According to the timelines and requirements of the European Union member state WEEE legislation, the following user information is provided in English for all qualifying products marked with the WEEE symbol and subject to the WEEE directive.

The WEEE symbol on the product indicates that the product must not be disposed of with normal household waste. Instead such marked waste equipment must be disposed of by arranging return to a designated collection point for the recycling of waste electrical and electronic equipment. Separating and recycling this waste equipment at time of disposal will help conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment.

Able offers our customers the opportunity to return products at the end of their functional life for recycling. Qualifying products are marked with the WEEE symbol shown above. Delivery costs of any authorised products returned to Able will be at the expense of the sender.

Normal product returns policies apply with pre-authorisation required in the form of an RMA number without which product will not be accepted.

Revision 1.1 12/06/2017

Producer Compliance Registration Certificate 2018

Able Systems Limited

Producer ID Number WEE/MM0004AA

Introduction
